

## Explore the Natural World With Your Class with Audubon Adventures

Audubon's award-winning environmental education program can be implemented in any classroom or after-school program. Designed for teachers and students in grades 3 - 5, Audubon Adventures offers top-quality nonfiction material from the environmental experts at the National Audubon Society. With captivating hands-on activities, students learn that we all have a personal stake in the health of the environment and play an important role in its preservation and improvement.

These materials can be used across the curriculum and include correlations to Common Core Language Arts Standards and Next Generation Science Education Standards. You will also receive student assessment material. The website, [audubonadventures.org](http://audubonadventures.org), provides a number of dynamic resources for both teachers and students.

Your exclusive FREE gift when you order an Audubon Adventures classroom kit will be membership in the National Audubon Society, including a full year of Audubon magazine (Value \$35.) Included in this is membership in Florida Audubon and Orange Audubon Society.

**Student Magazines.** You will receive 4 separate magazine sets (32 of each). Each set has vibrant photos and lively illustrations that bring the natural world to life right in your classroom.

Eight sets of four topics are now available. Teachers can choose among:

- "Sharing Our World With Birds" features Seabirds: Feathered Ocean Mariners, Hooray For Hummingbirds, Caring For Our Planet: Join in the Action, and Raptors.
- "Exploring Ecosystems" features: Sharing Our Shores, Grasslands: A Prairie Tale, Caring For Our Planet: Cleaner, Greener Communities for All, and The World of the Forest.
- "Feathers, Fur, Fins and You" features Pollinators; Wild Alaska; Rivers; and Caring For Our Planet: Kids are making a difference.
- "Wildlife on the Move" covers Bird Migration, Monarch Butterfly Migration, and Marine Migration.
- "Action for Planet Earth" features kid-friendly actions to conserve water, energy, and habitat.
- "Feats of Nature" features Animal Defenses, Animal Builders, Animal Migration, and Plants.
- "Wings and Things" features bees, bats, and birds, and American naturalist John James Audubon.
- "Cool Critters" features water birds, dragonflies & damselflies, turtles & tortoises, and spiders.

**Educator Resource Materials.** You will receive Classroom Guides and online resources for each magazine. This format will help you easily navigate your way through each topic and present the material to students in an appealing way. Each includes step-by-step teaching plan for the topic with:

- Instructions for hands-on activities, with easy-to-remove reproducible pages, plus outdoor activities
- Background facts and information
- Interactive student assessments
- Plus - glossary words, recommended resources, and correlations to national language arts and science standards.
